ACECQA KAHOOT! INSTRUCTIONS

QUIZZES FOR USE BY EDUCATION AND CARE TEAMS AND INDIVIDUALS

ACECQA Kahoot!
Instructions

ACECQA has developed a series of Kahoot! quizzes for use by education and care teams and individuals, to support you on your continuous quality improvement journey.

The ACECQA developed Kahoot! quizzes can be played for free on your computer or mobile device. Download the Kahoot! mobile app or sign up at kahoot.com

Enter the name #ACECQA into the search or discover bar – you'll know its ACECQA when you see our logo – and choose the topic you want to focus on.

How To Play

There are a few ways to play the quizzes, based on who you want playing and how you want them to participate.

Video tutorials on how to play are available on the Kahoot! website. Share these with your colleagues before you play.

There are three (3) ways to play.

ACECQA Kahoot!
Instructions

Single player mode: Practice

Play a quiz with the virtual Kahoot! opponents – Robyn, Mal, Nancy, and Shima – for a fun and competitive single player experience! This is perfect for when you want to practice, review and test your own knowledge.

For the player

1. *Download* the Kahoot! App to your mobile or other device

2. *Search* for an #ACECQA quiz

3. *Press the play* button in the bottom-right of the screen

4. Choose *Practice*

5. *Enter* a nickname

6. Press *ok go!* to begin the quiz.

Multi player modes

Live Quizzes are best played on a large screen, so that everyone can see the questions. This will suit team meetings and professional development sessions.

For the quiz host

7. *Open* (or install) the App and sign in to your account

8. Find and *select* the ACECQA Kahoot! you want to challenge others with

9. *Press the play* button in the bottom-right of the screen

10. Choose *Live quiz.*

For the player

1. Have your mobile of other device charged and ready to play.

2. *Enter the PIN* provided by the quiz host

3. *Choose* and enter a nickname

4. Wait for everyone else to join the quiz and then play!

Once everyone has entered the quiz PIN and a nickname, questions will be displayed on the large screen, along with answer options and any related images. Players must review them quickly and carefully. Each answer option is inside a box with a specific colour and shape that match the boxes displayed on their own mobile or other device screen. Choose your answer and wait for the next question.

ACECQA Kahoot!
Instructions

Challenge **quizzes** allow you to share a PIN or challenge link with your colleagues to see who can top the leader board! Challenges are divided across rounds of at least three (3) questions and rounds can be played at leisure without losing your progress.

For the quiz host

1. *Open* (or install) the app and sign in to your account

2. Find and *select* the Kahoot you want to challenge others with

3. *Press the play* button in the bottom-right of the screen

4. Choose *Challenge*

5. *Tap* on the pencil button to adjust how long from now the challenge ends

6. Tap on *Challenge options* to put questions in a random order, hide player positions on the leader board and hide the question timer (Note: by default randomise answer order and the question timer is on)

7. Press *create and share* to send the challenge link and PIN to players.

For the player

1. *Install* the app on a compatible mobile device.

2. Use a challenge link you receive, or open the app and *enter the PIN*

3. *Accept* the challenge

4. Tap on an *unlocked* round

5. *Choose* and enter a nickname

6. Start playing!

Challenges can be played at leisure. If players don't complete a challenge all at once and want to continue it later, they will find it in the *Discover* sections *recently played* (for Android) or *Challenges in Progress* (for iOS). Tap on the Kahoot! to view its details and *tap an incomplete round* to continue playing. When the challenge ends, the quiz host can share the results with the players.

ACECQA Kahoot!
Quizzes

ACECQA has developed the following quizzes.

#ACECQA: The Approved Learning Frameworks.

This Kahoot! quiz focuses on the approved learning frameworks that guide education and care services to promote children's learning and development, the pedagogical practices of educators and the intentional and reflective approach to assessment and planning.
