Overview

NQF Snapshot Q4 2024 is ACECQA's 48th national report on children's education and care services operating under the National Quality Framework (NQF).

It provides analysis and information on the profile of the sector and the quality ratings of services against the National Quality Standard (NQS).

A revised, streamlined version of the NQS commenced on 1 February 2018, which also made it more challenging for a service to achieve an overall rating of Exceeding NQS (see Figure 4).

An [interactive online version of the Snapshot](#), which includes additional analysis, is available on the ACECQA website.

The data presented in this Snapshot was taken from the National Quality Agenda IT System (NQA ITS) at 00.30 on 1 January 2025.

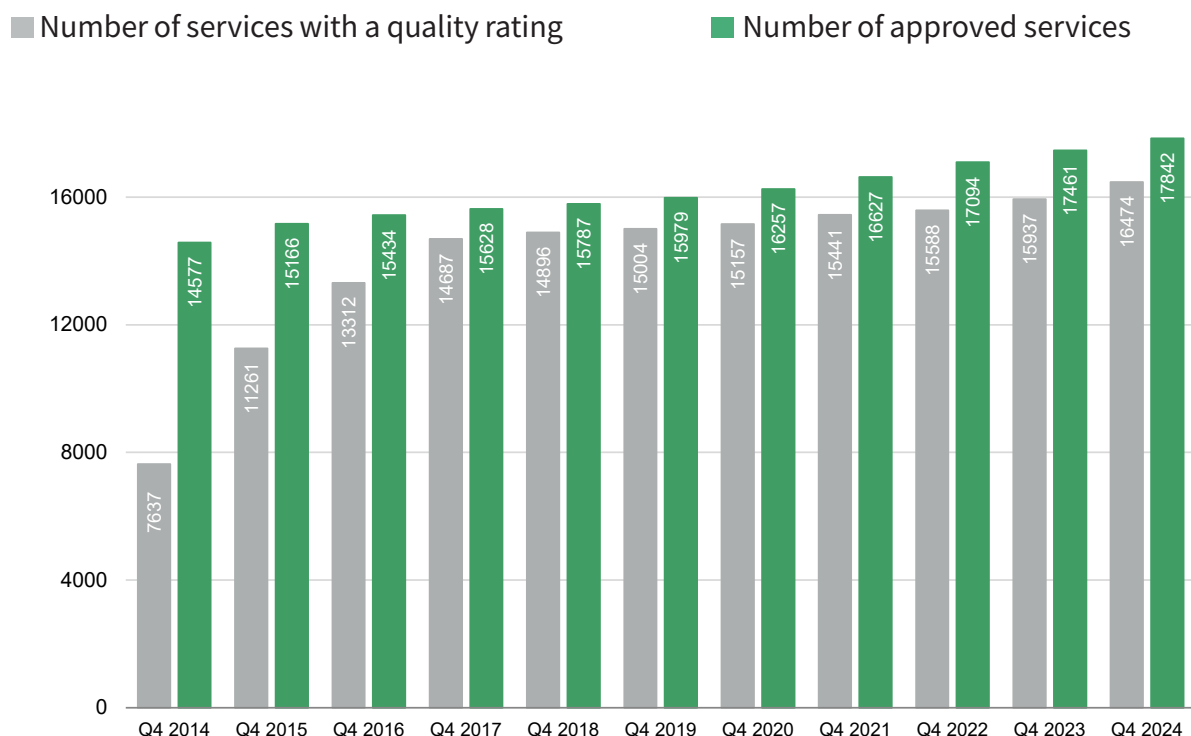

Due to rounding, individual percentages in the tables and figures may not add up to 100%.

Snapshot highlights

17,842	children's education and care services approved to operate under the NQF
16,474 (92%)	services with a quality rating
14,980 (91%)	services with a quality rating are Meeting NQS or above
7,194	providers approved to operate
5,662 (79%)	providers approved to operate only one service
27	services rated Excellent by ACECQA ¹
23,094	quality rating reassessments completed
69%	of services rated Working Towards NQS improved their overall quality rating at reassessment
15,836 (89%)	services with a quality rating against the 2018 NQS

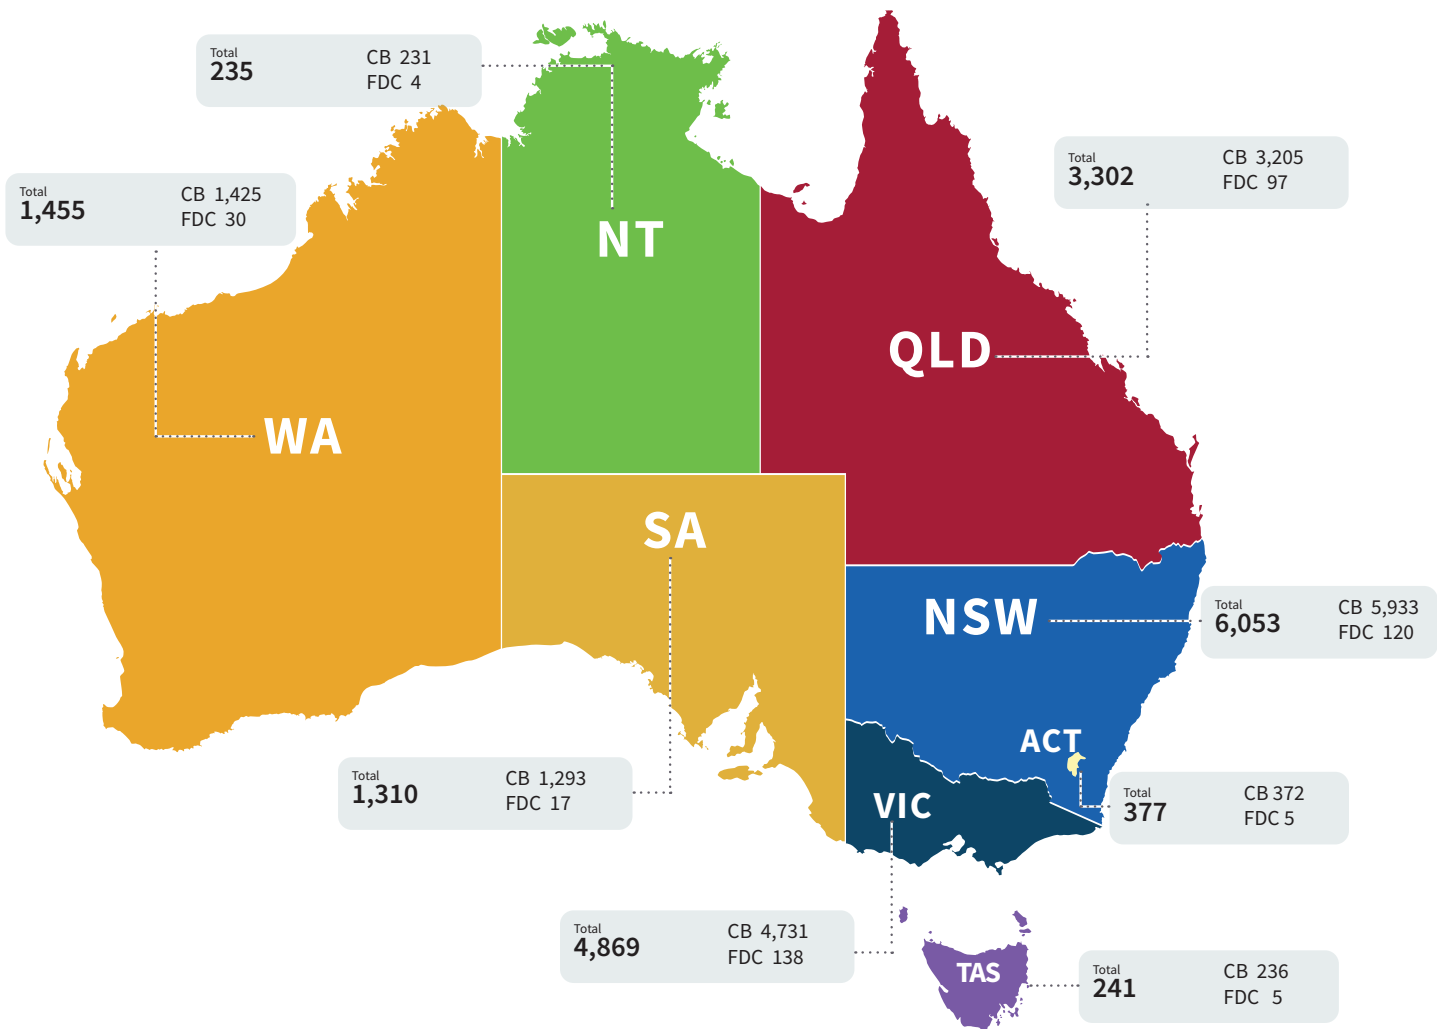

Figure 1: Number of approved services and number of services with a quality rating by quarter

¹ The Excellent rating is awarded for a period of five years. Unless a reapplication for the Excellent rating is received, a service's rating will revert back to Exceeding NQS after this five year period. The Snapshot includes the current number of Excellent rated services.

¹ A centre-based service is an education and care service other than a family day care service. This includes most long day care, preschool and outside school hours care services that are delivered at a centre. It does not include Tasmanian preschools/kindergartens and most preschools/kindergartens in Western Australia that are outside the scope of the NQF, as well as other services that aren't regulated under the National Law.

² A family day care service is an education and care service delivered through a network of educators operating from residences and other approved venues. They are sometimes known as family day care schemes and they are administered and supported by central coordination units.

1 NQA ITS data collected on service type is self-reported by providers when applying for service approval, and providers may choose multiple service types. For example, a service providing both long day care and outside school hours care, or one providing both long day care and preschool/kindergarten.

2 Providers are not required to notify changes to this information, and therefore this NQA ITS information may not be current.

3 Centre-based services offering more than one type of service are classified as follows: services which provide long day care in addition to any other service type are classified as long day care services; services which provide preschool/kindergarten as well as outside school hours care are classified as preschool/kindergarten services; services which provide outside school hours care only are classified as outside school hours care services.

4 Excludes Tasmanian preschools/kindergartens and most preschools/kindergartens in Western Australia that are outside the scope of the NQF, as well as other services that aren't regulated under the National Law.

5 Three services categorised as 'Other' excluded for graphical purposes.

Figure 6: Number and proportion of services by provider management ^{1,2,3}

Figure 7 shows that 79% of approved providers operate a single service while 1% of approved providers operate 25 or more services.

Figure 7: Proportion of approved providers by size

Figure 8 shows that 32% of approved services are operated by small approved providers while 36% of approved services are operated by large approved providers.

Figure 8: Proportion of approved services by provider size

¹ NQA ITS data collected on provider management type is self-reported by providers when applying for provider approval. Providers are not required to notify changes to this information, and therefore this NQA ITS information may not be current.

² Provider management type classifications are available at Australian Bureau of Statistics (2013) [National Early Childhood Education and Care Collection: Data Collection Guide, 2013](#) (Cat. No. 4240.0.55.002).

³ 16 services categorised as 'Not stated/Other' excluded for graphical purposes.

Progress of assessment and rating

Table 2 includes all approved services. The proportion of services with a quality rating will not reach 100% at any one time because a small proportion of services will only recently have been approved and may not have started operating or may have only been operating for a short period of time. In general, state and territory regulatory authorities will assess and rate newly approved services within 9-18 months of operations commencing.

Service visits

Figure 9 shows the total number of quality assessment and rating visits compared to all other visits undertaken by state and territory regulatory authorities in equivalent quarters each year. Other types of visits include checking and monitoring compliance with the requirements of the NQF, investigating complaints and responding to events such as serious incidents or changes of service ownership, as well as visits for educative purposes.

While the ratio of assessment and rating visits to all other visits has fluctuated over time, state and territory regulatory authorities have undertaken more than three times as many other types of visit than assessment and rating visits since 2017, emphasising the significant amount of regulatory work that occurs outside of quality assessment and rating.

Figure 9: Number of service visits (quality assessment and rating visits compared to all other visits)

Draft and final reports, and reviews

Table 4 shows the proportion of overall quality ratings that change between the draft and final assessment and rating report.

As part of the comprehensive assessment and rating process, service providers are issued a draft report by state and territory regulatory authorities, which includes the proposed quality ratings. Service providers are given the opportunity to provide any required feedback or clarification prior to the final report and quality ratings being issued.

More than 95% of all overall quality ratings remain unchanged between the draft and final assessment and rating reports.

Table 4: Proportion of overall quality ratings that change between the draft and final assessment and rating report

Rating level	Change in rating	%
Higher	801	4.9%
Unchanged	15,645	95.1%
Lower	1	0.0%
Total	16,447	100%

Figure 10 shows the proportion of quality assessment and ratings that result in a first or second tier review in equivalent quarters each year.

As part of the comprehensive assessment and rating process, service providers may request a (first tier) review by the relevant state and territory regulatory authority following the final report and quality ratings being issued. They may also subsequently request a (second tier) review by an expert panel convened by ACECQA.

Figure 10: Proportion of quality assessment and ratings that result in a first or second tier review

Quality improvement

Table 5 presents a service's previous overall rating alongside its reassessed overall rating. For example, 4,657 services previously rated Working Towards NQS improved their rating to Meeting NQS after reassessment. While 2,444 services previously rated Working Towards NQS received the same rating again after reassessment.

Table 5: Reassessments by overall quality rating¹

	Exceeding NQS	0%	8%	43%	48%	-

¹ Reassessments include the following processes described in the National Law: i. Partial reassessment and re-rating requested by provider; ii. Partial reassessment and re-rating instigated by the regulatory authority; iii. Full reassessment and re-rating requested by provider; iv. Full reassessment and re-rating instigated by the regulatory authority.

Overall quality ratings

Authorised officers from state and territory regulatory authorities assess and rate services using the seven quality areas, 15 standards and 40 elements that make up the NQS. Services are given a rating for each of the seven quality areas and an overall rating.

1 Educational program and practice	Significant Improvement Required	Working Towards NQS	Meeting NQS	Exceeding NQS	Excellent
2 Children's health and safety	<p>Service does not meet one of the seven quality areas or a section of the legislation and there is a significant risk to the safety, health and wellbeing of children.</p> <p>The regulatory authority will take immediate action.</p>	<p>Service provides a safe education and care program, but there are one or more areas identified for improvement.</p>	<p>Service provides quality education and care in all seven quality areas.</p>	<p>Service goes beyond the requirements of the National Quality Standard in at least four of the seven quality areas.</p>	<p>Exceeding rated services that promote exceptional education and care, demonstrate sector leadership, and are committed to continually improving.</p> <p>This rating can only be awarded by ACECQA.</p>

Figure 11: Overall quality ratings by service type

Figure 12 shows the variation in spread of quality ratings between provider management types.

These differences can reflect a range of contextual factors, such as the service profile of these provider types. For example, half of all ‘State/Territory and Local Government managed’ services are preschools/kindergartens, with preschools/kindergartens performing better against the NQS than other service types (see Figure 11). In contrast, preschools/kindergartens make up only 1% of ‘Private for profit’ services.

Services rated Working Towards NQS

A service receives an overall rating of Working Towards NQS if any of the seven quality areas are rated Working Towards NQS. A quality area is rated Working Towards NQS if any of the standards within that quality area are rated Working Towards NQS.
